Eusebius McKaiser : Could I Vote DA?: A Voter's Dilemma before purchasing it in order to gauge whether or not it would be worth my time, and all praised Could I Vote DA?: A Voter's Dilemma:

0 of 0 people found the following review helpful. Critique without solution. By patriotic whiteboyEusebius stimulates a lot of thought. Am I a liberal; not necessarily. Do I support many of the ANC objectives - absolutely. Would I vote ANC; not at the moment. The book contains significant contradiction. The DA he criticizes for being wishy washy on BEE yet equally criticizes them for fast tracking black politicians who are not sufficiently qualified for the positions they hold. Isn't this the very problem that is bringing the country to its knees. Double standards; perhaps. I only hope

we as South Africans of diverse origin belief can find each other come together to build a great nation.0 of 0 people found the following review helpful. Must read. However...By LungeloFantastic points. This book will be a classic, it captures the shift in South African politics that is very personal for South Africans from all walks of life. Made so many highlights! Could have been an easier read in order to win awards and less self affirming instances from the author. Found some editing errors- being petty but annoys me.1 of 1 people found the following review helpful. Interesting readBy Baring;rd FlatinI'm a foreigner with a distinct interest but Limited knowledge of SA and it's politics.This book gives a useful insight of DA from a liberal perspective. I found the book well written by a philosophical and intelligent Author giving his personal views.

Helen Zille said of Eusebius McKaiser: 'Don't give him oxygen. He wants a controversy. Narcissism in extremis. Attention seeking.' (Twitter, September 2013) McKaiser says of Zille: 'I think Helen Zille is a good leader.' ... but he also says: 'She is the wrong person to have a crack at leading the party to a victory against the ANC beyond 2014'. Trying to decide who to vote for in South Africa can be extremely difficult. A black and white issue for some, but shaded with grey for many. Much has been written about the ANC, their past, their future, their strengths and their shortcomings, but what about the official opposition? Could the DA be a political home for you? Eusebius McKaiser explores this question from a variety of angles -- what do the DA get right? What do they get wrong? Is black discomfort with the DA a matter of policy or maybe a question of tone? Do the DA really 'get' what worries their critics? Read *Could I Vote DA?* and make up your own mind.
