Judith Williamson : Deadline at Dawn: Film Criticism 1980-1990 before purchasing it in order to gauge whether or not it would be worth my time, and all praised Deadline at Dawn: Film Criticism 1980-1990:

Judith Williamson takes herself to the movies, and this book contains the reviews she wrote as film critic for Time Out, City Limits, the radical alternative London weekly listings paper, and the New Statesman. This book contains her

journalism, analysis of those times and her career as a journalist in a turbulent England with fierce labour relations raging, both in the NUJ, and during the Miner's Strike. The book covers most films on general release in these years, as well as esoteric foreign movies.

From Publishers Weekly Williamson analyzes the themes and politics of recent film. Copyright 1993 Reed Business Information, Inc. From Library Journal This collection of Williamson's writings during the 1980s includes not only reviews but interviews, introductions for film series, conference discussions, and more. Interestingly, the material is arranged according to her different types of approaches, modes of writing, or ways of discussing films. For example, the section "Ways of Showing" contains introductions and program notes for several film series on TV and in theaters. Williamson is concerned with writing about films rather than film itself, promoting a new form of film criticism: "That people should know a little more after reading a review, not just about the film in question but about film as a medium." She sees several faults in current movie criticism, which she discusses very well. In fact, every piece in the book shows sharp perception, keen insight, and an understanding of film. Highly recommended for academic and subject collections.- Marianne Cawley, Kingwood Branch Lib., Tex. Copyright 1993 Reed Business Information, Inc.
