If you're 18 and just getting out into the world, this would probably be helpful. If you're 35 and been on your own for quite

some time, this probably isn't going to help you much unless you've lived rather wealthy and haven't had to watch your spending at all. 1 of 1 people found the following review helpful. Excellent Advice! By cynI listened to this book via Audible and knew it was one of those books I wanted to have for reference. I would recommend consulting this book before making any purchase, especially a large purchase. The chapters are divided so that it is easy to locate content that's focused on your intended purchase, but it is also great to just read through (or listen). The advice is awesome and I have never regretted a purchase made (or avoided) using David's advice. Fight For Your Money is just what I was looking for to add to my collection of personal finance books and you will not regret this purchase. 42 of 44 people found the following review helpful. David Bach saves YOU money By Tom If you are not familiar with David Bach it is time to get to know him. He is truly fighting against the system that is designed to take our money from us legally. After reading his latest book this is what happened: David, I just hung up with my cable and phone providers and because of your book:--I am now saving \$25 per month on home phone,--changed plans on cellular and saved at least \$30 per month just on the monthly portion, also got unlimited texting in the plan which I was paying about \$20 a month for text over usage.--The cable company cut my rate by 50% at \$49 a month for six months then \$20 a month cheaper after that without cutting service at all. We do like our HBO. Total yearly savings are at least \$1320 While I am very glad to be saving I feel like an idiot for allowing it to go on in the past. The good with the bad you know. The book also helped me update our wills, verify social security earnings, spend all of our gift cards, roll over an old employer's 401k to my fidelity account, and validated my buying my car that is two years old, lease trade in for 50% off the new car price (Cadillac DTS for \$27,000) (this was a few years ago and I have preaching the practice to everyone) All from reading your book the last couple of days. I would read it and then go to the computer, read some then to the computer. My wife thought I was nuts until I showed her the work I was doing. She still thinks it but not due to this behavior. This really explains people dislike "the system". Banks, credit cards and just big business in general are all inherently bad and need to be regulated. As a small business owner I was more of the less regulation the better in the past but.... This book will help anyone who takes the time to read it. Welcome to the Finish Rich World of David Bach Thanks for reading, Tom and Wanda Kennedy

A war for your money is raging and it is time to fight back! In a book that will forever change how you spend your hard earned money, America's favorite financial coach, David Bach, shows you how to save thousands of dollars every year by taking on the "corporate machines"; In these times when every dollar counts, big businesses are using dishonest tricks to rip you off, making themselves billions while they keep you living paycheck to paycheck. David Bach knows that until you learn to fight for your money, you will overpay for almost everything you buy. In Fight for Your Money, he gives you the tools to FIGHT BACK and WIN. Bach shows you how every dollar you spend is really a battle between you and the businesses and the government; who want to take it as profit. When you know how the system is rigged; the extra points, the hidden fees, the late charges, the unused tax breaks, the escalating rates; you can fight back against the pickpockets and save literally thousands every year; money in your pocket that can help you live your dreams. Fight for Your Money shows how you are being taken on your cell phone contract, cable bill, car purchase, credit card, life insurance, healthcare, 401(k) plan, airfare, hotel bills, and much more. Bach gives you all the tools you need to fight back, with websites, phone numbers, sample letters and real-life stories of ordinary people who have fought for their money and won. You'll learn how to: Beat the credit card companies at the games they play that cost you thousands annually in interest and fees Make your bank accounts work for you with higher yields and lower fees Save thousands by pre-paying college tuition at TODAY's prices Raise your credit score and pay thousands less in mortgage interest Cut your life insurance premiums in half by making one call Save hundreds on air travel, hotels, and car rentals; just by being an informed consumer Avoid huge rip-offs like bank-issued gift cards, medical credit cards, 401(k) debit cards, and sneaky renewals of your cell-phone plan. David Bach knows that when you are being taken financially, you work harder than you have to, for longer than you need to. This book helps you fight for your money, so you can live your life doing what you really want to do.
