Franccedil;ois M. de Visscher : Financing Transitions: Managing Capital and Liquidity in the Family Business (A Family Business Publication) before purchasing it in order to gage whether or not it would be worth my time, and all praised Financing Transitions: Managing Capital and Liquidity in the Family Business (A Family Business Publication):

This book establishes the principles and patterns necessary to laying the foundation for capital and liquidity planning. Through an in-depth examination of financial situations, it leads family businesses to making wise, well-timed choices about the future of the business and the family.

'While each volume contains helpful 'solutions' to the issues it covers, it is the guidance on how to tackle the process of addressing the different issues and the emphasis on the benefits which can stem from the process itself which make the Family Business Leadership Series of unique value to everyone involved in a family business - not just the owners.' - David Grant, Director (retired), William Grant Sons Ltd. (Distillers of fine Scotch) 'These books deserve a place in every business-owning family's library' - Leacute;on Danco, Cleveland, OH 'I think the Family Business Leadership Series books are excellent.
