ESOMAR : Market Research Best Practice: 30 Visions for the Future before purchasing it in order to gauge whether or not it would be worth my time, and all praised Market Research Best Practice: 30 Visions for the Future:

Market Research Best Practice is a compilation of the best discussion papers, case studies and methodologies from the ESOMAR publishing and event programme over the last decade and more. Market research is adapting to an increasingly competitive, demanding and globalised business world and, as the world's leading market research

organisation, ESOMAR is providing the platform to showcase latest advances and best practice. In the pursuit to define and illustrate 'new' market research, this book provides a unique source of ideas and practical examples of what research has to offer business and how research can influence the way results are tracked, insights are generated and ultimately decisions are made. Market Research Best Practice draws on recent successes to explore how research is evolving to meet market needs and how good research practice fits into modern business. More than 50 authors have contributed their work to this collection - all papers were first presented at ESOMAR events and many contributions have been past ESOMAR award winners.
