Thank You Maverick Trading!By CustomerFor 17 years I was a professional trader in tax-exempt fixed income securities responsible for trading, underwriting, and hedging positions. Even wrote a white paper that indicated flaws in the calculation of the municipal bond index futures. For the last 20 years I've focused on teaching completely unrelated to the financial world and have not had the time to actively trade. As I expect to have the time to once again research and trade, your work has given me both the information and confidence to start as I enter a new phase of life. Hopefully, I'll be in a position financially to help a few of my kids come along for the ride if they choose to do so. Thanks!0 of 0 people found the following review helpful. Chapter 2 is my favorite chapter in the bookBy michael mitchellThe maverick trading system on option trading has definitively added tools to my option trading arsenal. Chapter 2 is my favorite chapter in the book. I review this chapter every weekend before making my weekly option trades.7 of 8 people found the following review helpful. Safe and sane in an insane marketBy Patricia Porter"Maverick Trading" lays out a rules-based approach to options that helps contain the forces of fear and greed that test a trader's psyche. It provides a top-down approach, from markets to sectors to individual stocks -- as well as a detailed introduction to reading charts -- to increase the odds of making successful trades. Position-sizing and other forms of risk management are also addressed, along with trading techniques and their mathematical underpinnings. Without being simplistic or overly optimistic, "Maverick Trading" is an engaging invitation to "get in the game".

Don't conform to Wall Street's rules. Be your own trader—Maverick style. PROVEN STRATEGIES FOR GENERATING GREATER PROFITS FROM THE AWARD-WINNING TEAM AT MAVERICK TRADING Wall Street's dirty secret is out—you don't need a professional to manage your money, and you can beat the market on a consistent basis. All that's required are three things: personal dedication, a sound risk management strategy, and the trading system outlined in this book. Yes, it's that simple. As active traders at the private proprietary trading firm Maverick Trading, the authors have taught hundreds of budding traders how to end their relationship with the so-called professionals and trade on their own, using the same system the firm used to generate gains of more than 100% in 2008, 50% in 2009, and 50% in 2010. It's not a get-rich-quick scheme. It's a long-term methodology designed to create steady wealth you can live on, retire on, and pass down to the next generation. Maverick Trading teaches you how to: Design a portfolio using long and short options Read OHLC and Candlestick charts Hedge your investments with options Create a risk-assessment tool kit Mentally prepare yourself for the life of a trader It's not complicated. In the author's own words, "The system in this book relies on pattern recognition, impeccable risk management, understanding yourself, and fifth-grade math." The hard part is up to you. You have to make the decision to go all in. Full-time. No turning back. Once you do it, you'll wonder what took you so long. Let Maverick Trading put you on the path to the life you were supposed to lead.

About the AuthorDarren Fischer has evaluated and consulted more than 200 funds spanning asset classes such as hedge funds, private equity, venture capital, and real estate. He is a trader at Maverick Trading. Jon Frohlich joined Maverick Trading in 2002. He travels across North America introducing nascent traders to the powerful tools he has learned. Robb Reinhold has decades of experience as a trader. A passionate educator, he travels the world teaching and recruiting new traders for Maverick Trading when he's not trading in the currencies market.
