**Tanya Feke : Medicare (Idiot's Guides)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Medicare (Idiot's Guides):

0 of 0 people found the following review helpful. Worth it!By Jeff CaldeiraHeard about this book on a radio show. Very informative! I have read a few of the most popular books on this subject and find this book is the best layout and great info!0 of 0 people found the following review helpful. Five StarsBy Mimi TongGreat info for first time Medicare user!0 of 0 people found the following review helpful. Five StarsBy Vicki thompsonInformative.

Medicare and its various supplemental plans offers comprehensive health coverage for aging and retired Americans. While this is a "right of passage" for those in their 60s, this program can be complicated and confusing. Idiot's Guides: Medicare is an easy-to-understand guide that explains all of the rules, processes, and benefits-- and how to maximize those benefits. Beginning with a brief background on what Medicare is and why it was established, the book explores all parts of the program, including the prescription drug program, Part D. It also offers tips on closing Medicare

coverage gaps and what the future of Medicare may entail.
