reading the entire book, which is more than I can say for a lot of other peak performance books. It comes down to ONE thing . . . putting the exercises to work! You can read books all day, everyday. But if you don't practice (much like an athlete is required to) you're wasting your time. This book will capture your attention from start to finish and your chances of being successful is guaranteed to happen. I gave this book 4 stars primarily due to the over use of personal stories about other clients and people.
