It was heart felt and not just another financial book dealing with numbers. It gave me a step by step plan to deal with any financial condition as well as dealt with issues from someone who I felt could relate. The fact that the Author went through all those tragedies and still came out with not only positive outlook but an actual system that anybody can use was Awesome! I recommend this book to anyone who wants REAL ANSWERS and not just another expert telling us the same old info. A MUST READ!!!
