Deborah L. Price : Money Magic: Unleashing Your True Potential for Prosperity and Fulfillment before purchasing it in order to gage whether or not it would be worth my time, and all praised Money Magic: Unleashing Your True Potential for Prosperity and Fulfillment:

2 of 2 people found the following review helpful. Debra is great at showing you the wayBy stephen c. churchAll the wealth building and financial techniques will be of little use if you don't understand your beliefs and attitudes around

money. Getting this aspect of your life in perspective will have a positive effect on your relationships and lifestyle in general. Debra is great at showing you the way. Practical, easy to read and understand, lots of case studies you can relate to. Enjoyable, useful and much needed. 3 of 3 people found the following review helpful. Great perspective
By AuthorKineI had not broken the money types down the way the author has in this book but I think it is a great way to evaluate people and money. I am a financial advisor and coach and I am looking forward to sharing these ideas with my clients and friends. I meet the author and she is a wonderful peaceful person. 0 of 0 people found the following review helpful. Great read that will inspire you to take action!
By ThereseThere are probably more books written about money than any other topic. How many show you step by step what you need to do and why? This book helps you see the inner game of money, why you make the decisions you make and what you need to do to get different results. Don't just read the book. Commit to either doing the exercises or hiring a money coach that will help you.

Making, keeping, and enjoying money isn't just about investments, salaries, inheritances, or dividends, according to Deborah Price. It's also about the games people play around money and their character type in relation to it. In *Money Magic*, Price shows how to transform your relationship with money to obtain the wealth you desire. The book is structured around eight "types": the Innocent (the ostrich approach); the Victim (blaming circumstances); the Warrior (conquering money); the Martyr (always rescuing someone); the Fool (gambler looking for a windfall); the Creator/Artist (regarding money as evil); the Tyrant (controlling through money); and the Magician (benefitting spiritually and financially from money). The Magician is the book's ideal, and Price offers exercises to help readers attain it. Describes eight money types, and offers quizzes to determine your type. Shows readers how to stop making fear-based money choices.
