**Steve Chapman : Research Methods: Textbook (Society Now)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Research Methods: Textbook (Society Now):

Since its first edition in 1985, Patrick McNeill's Research Methods has become a classic introductory text for students of sociology at A level and in undergraduate courses as well as for a range of specialists in education, business, social care and medicine who need a brief but authoritative account of how sociologists set about conducting research. After

a brief overview of the history of sociological research which introduces key concepts, this new edition, co-authored with Steve Chapman, describes the main sociological research methods, and includes sections on theory, science and values as well as: references to research studies developments in relevant sociological theory developments in research methodology new material on the presentation of research findings. Including an appendix of questions which students should ask when they are evaluating accounts of research, this lasting text retains the clarity of style of the second edition, and brings the content up-to-date.

About the Author Patrick McNeill has been involved in A level Sociology for over thirty years, as teacher, examiner, syllabus developer, author and publisher. He is currently working as an independent writer and consultant.
