**Liz Kao, Jon Paz : Salesforce.com For Dummies** before purchasing it in order to gage whether or not it would be worth my time, and all praised Salesforce.com For Dummies:

4 of 4 people found the following review helpful. There has got to be better books on Salesforce but this one is one I ...By Robert KirkWith my company purchasing this new CRM, I thought I would try to get a jump on it and start studying this book. After using Salesforce for about 5 months now, I can say this book was way too technical and detailed without helping me much. Either it is written to cover too broad of a reader or I just use the absolute basics in SF. I tried and tried to find much value, without success.. There has got to be better books on Salesforce but this one is one I would skip.2 of 2 people found the following review helpful. Good concise guide for SalesforceBy Dan HardyGreat summary of salesforce. The documentation on SF is overwhelming and this makes it quite concise and easily understandable if you were lost like me.0 of 0 people found the following review helpful. Five StarsBy Greg H.This will come in very handy when training my team.

Your all-access guide to reaping the benefits of Salesforce.com Salesforce.com has a rapidly expanding influence over

the way companies across the globe interact with their clientele.
