**Paul Goodey : Salesforce CRM ndash; The Definitive Admin Handbook - Third Edition** before purchasing it in order to gage whether or not it would be worth my time, and all praised Salesforce CRM ndash; The Definitive Admin Handbook - Third Edition:

2 of 2 people found the following review helpful. Great Aid for Certification ExamBy JamesA fantastic resource for those looking to pass the Administrator Certification exam. After going through all relevant trails and badges on Trailhead, I moved onto this book and then onto an online course (an inexpensive one). Will this book help you pass the test all by itself? No, but the information is fantastic and organized into the right categories. While this book was written for a previous release of Salesforce, it is still a relevant resource. A new version is scheduled to be released in February 2017 and I recommend picking that up once it is available.2 of 2 people found the following review helpful. Good for CertificationBy SullySo far this has been good. Working on getting Certified to be a Salesforce Admin. Lots of good knowledge in this book.1 of 1 people found the following review helpful. Five StarsBy Arika JohnsonThis book has a lot information on sales force that will help me prepare for the certification

Successfully administer Salesforce CRM and Salesforce mobile implementations with best practices and real-world scenarios

**About This Book** Updated for Winter '15, this book provides the latest best-practice Salesforce administration principles, real-world experience, and critical design considerations for setting up and customizing Salesforce CRM. A pragmatic guide to the key functions for the customization and set up of the application, related to enterprise security, user and data management, process automation, analytics, and mobile features.

**The features of the Salesforce CRM platform** are explored using detailed, step-by-step navigation and descriptions, which offers the reader clear guidance for the customization and administration of the application.

**Who This Book Is For** This book is for administrators who want to develop and strengthen their Salesforce CRM skills in the areas of configuration and system management. Whether you are a novice or a more experienced administrator, this book aims to enhance your knowledge and understanding of the Salesforce CRM platform and features.

**What You Will Learn**

- Configure and control the various organization-wide user interface features in Salesforce CRM.
- Set up and maintain a user and administer appropriate security and login access mechanisms.
- Apply organization security and understand the capabilities of the Salesforce CRM sharing model.
- Create, delete, and customize fields, page layouts, and list views for custom and standard objects.
- Implement the mechanisms for data management and discover the tools to import, update, transfer, and mass delete data.

**In Detail** The book begins by guiding you through setting up users and security settings and then progresses to configuration, data management, and data analytics. Next, you will swiftly move on to how to set up organization-wide features that affect the look and feel of the application. Process automation, and approval mechanisms are then covered, along with the functional areas of Sales Cloud, Service Cloud, Marketing Cloud, and Salesforce Chatter. At the end of the book, we cover Salesforce mobile apps and mobile administration, along with techniques to further enhance the system and improve the return on investment.

**Prerequisites** include Enterprise, Unlimited, Performance, or Developer edition of Salesforce CRM along with the System Administrator permission.

**About the Author** Paul Goodey Paul Goodey is the author of the book entitled *Salesforce CRM Admin Cookbook*, Packt Publishing. He has over 20 years' experience developing web technology solutions for companies of all sizes across a variety of industries and has been building solutions with Salesforce CRM since 2006. Paul has enjoyed a variety of roles while working with Salesforce CRM, having worked as a developer, business analyst, solutions architect, and system administrator to provide solutions for both in-house and consultancy-based end users. Based in the UK, near London, his professional qualifications include Salesforce.com Certified Developer DEV-401. He is a keen and active member of Salesforce.com's administrator and developer online communities. He can be found on LinkedIn at <http://www.linkedin.com/in/paulgoodey>. In his spare time, Paul is an avid runner, having run several marathons and half-marathons.
