Mark T. Jewell, Rachel A. Christenson : Selling Energy: Inspiring Ideas That Get More Projects Approved!
before purchasing it in order to gage whether or not it would be worth my time, and all praised Selling Energy:
Inspiring Ideas That Get More Projects Approved!:

4 of 4 people found the following review helpful. Stay sharpBy Jay P AmundsonMark Jewell's book and morning blog is a blueprint for success! As a implementing contractor for a utility company, our company encourages customers to complete energy efficiency projects. Each chapter of Mark's book has a short specific lesson and I find that each message is relevant to our sales process and keeps me nourished with new ideas. Reading the book, then staying current reading the short blog is a way to think like electric and natural gas utility customers, including all

stake holders, and understand what is important to them. Many of the books messages have strategies on how to approach customers that are contemplating ways to save energy and money. Striving to improve sales tactics keeps me sharp. 0 of 0 people found the following review helpful. Mark Jewell is the real deal. He really knows his stuff. Great material By Joseph Yosso Great Teaching. I have been in sales for many years, and have heard most of the greats. Mark Jewell KNOWS HIS STUFF. Great information, 1 of 1 people found the following review helpful. Value By Mark Ceraldi Zero fluff. Packed with Value. Transformed the way I think about Sales. Bullet point chapters make it easy to read in pieces ndash; there is always a good stopping point. However most likely, you won't put it down. Bottom line: if you work sales, especially efficiency sales (Lighting, HVAC, Controls, etc) this book is so worth your time. I wish that I had read this book sooner in my life.

#8 on The Wall Street Journal best-selling hardback business book list for September 13, 2014! Winner of the 2015 Reader View Annual Literary Award (Business / Sales / Economics), 2015 International Book Award (Business Sales), 2015 Axiom Business Book Award (Sales Skills / Negotiation / Closing), 2015 National Indie Excellence Book Award (Business Motivational), 2015 Indie Book Award (Career), and 2015 New York Book Festival.

"Finally, somebody teaches us engineers how to sell energy efficiency. Even the best leaders in the industry will read this and wonder, 'Why aren't we already doing this?'" Lars van der Haegen
