Good financial advice for Christian couplesBy DismasWednesday, November 11, 2015Format: KindleThe copy I have is a pre-release copy, which as I understand it has no strings attached. Larry Burkette wrote this book a few years ago. This is a re-publication of his work.Starting Out Right by Larry Burkett is a book about finances and how they can be handled by young married couples to avoid financial

problems in marriage. He wrote a number of books about money management and its application to Christian living that are similar to Dave Ramsey's writing. I use one of his other books in my ministry (Your Finances In Changing Times), which has been helpful to my people in their lives for those who apply the principles he teaches there. I believe this book will help those who use his good advice in their finances. I like this book; Burkett's money matters advice is very good. I strongly recommend this book.

Money doesn't have to hurt your marriage. If you and your spouse are newly married, you probably have a lot of questions about how to make, spend, and invest money. Financial expert Larry Burkett can help you avoid the financial pitfalls many young couples encounter. In this highly practical guide, he helps you: Understand how God uses money in a marriage Make wise choices about credit cards Design a budget that you both like Stop bad habits before they start Teach your children about finances Decide what type of investments are right for you *hellip*; and much more. *Starting Out Right* offers solid biblical direction and time-tested advice to help you make wise financial choices that will last a lifetime.
