Dead On Great Sales Book for These Times By Masman I am as skeptical as I think a lot of "sales" books buyers are based on most of the books saying the same old thing in a different way, but this book is different. Acuff truly understands the value of putting yourself in the other person's place. There is a lot to appreciate in this book, but if you only buy it for the summation of the "The Eight Laws of Sales Intent", I think you won't be sorry that you did. I am in a low-key industry where high-pressure is the kiss of death. This book lays out the fine points of that kind of selling in a way that most others don't. Acuff pays respect to Gitomer in the first few pages and that impressed me too. I love Gitomer's books, but I don't have his energy and I never will. Acuff shows you how to develop a value proposition that is so important for selling in our highly competitive economy. I don't write a lot of reviews, but I really feel strongly about the ones that I do. 0 of 0 people found the following review helpful. Five Stars By E.
